

Give a Smile!!!

As a young child I spent a lot of time in the hospital, and I know what a scary and lonely place it can be, especially when you are sick and frightened.

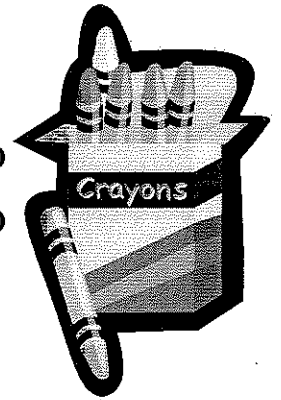

I was helped through too many days and nights in the hospital by a special group of people called Child Life. Their job is to bring fun and games into an otherwise terrible experience for many children who are frightened.

For my mitzvah project, I am collecting art supplies, coloring books and other projects to be donated to the Schneider Children's Hospital.

These supplies will be used by Child Life to bring a smile to the face of a child who is too sick to be at home, or at school or on the playground.

There will be a box placed at the entrance of the school to collect these supplies. Please bring unused art supplies, paper, coloring books, crayons, markers, or anything else that could be used by these children.

Thank you,

Amanda Kiewe
